## Experience

- Cyber Validone LLC - Specudate** 2/19 - Present Chief Technical Officer
- Used my role as Chief Technical Officer to co-develop a full stack mobile dating application
  - Developed the front-end of the application using React-Native framework
  - Developed the back-end of the application using Node.js
  - Created the database with MongoDB in order to achieve scalability and simplicity
  - Built an application for users to connect and socialize with a better experience than other dating applications
- The Performa Group** 2/20 - 12/20 Software Developer Intern
- As a Software Developer Intern, I created and executed manual QA tests for Enterprise Budgeting Software
  - Developed Java based automated scripts for regression testing (using Selenium)
  - Configured and utilized Microsoft Azure environment ticketing system
  - Worked with a senior software engineer to produce rigorous test for several client based applications
- Federal Home Loan Banks Office of Finance** 2/18 - 12/18 IT Technical Administrator
- As an IT Technical Administrator, I served the helpdesk using ServiceNow ticketing system
  - Increased productivity of the work environment by troubleshooting and debugging of software and hardware issues
  - Created Powershell scripts for automation purposes within the Windows Server environment
  - Installation and maintenance of hardware (Desk, Monitors, Workstations)
- Eleview International Inc** 1/16 - 1/18 IT Support / Engineer
- Used my role as an IT Support to Install, troubleshoot, and management of Windows OS (10)
  - Developed a three-dimensional object scanner using Intel's RealSense Depth Camera and .NET
  - Worked with the CEO in order to increase work productivity in the workspace

## Education

**George Mason University, Fairfax, VA**  
Cumulative GPA: 3.2

9/15 - 5/21

Computer Science

### LinkedIn Learning Courses

- Full-stack Javascript Development: MongoDB, Node, and React
